Title of the Practice –

- ❖ Free coaching for competitive exams

The Context & Practice –

The biggest problem of our country is unemployment. This problem of unemployment is prevalent not only in the uneducated class but also in the educated class. The number of educated unemployed is increasing day by day. In such a situation, efforts are being made by our college to provide students with theoretical education. Apart from the subjects, they should also be prepared for competitive examinations so that they can achieve success in future. For the preparation of NET SET exam, the college organized free classes of 2 hours per day for a month in which the classes were taken by the concerned subject experts.
