2.3.2 - Teachers use ICT enabled tools for effective teaching-learning process.

ICT (Information and communication technology) deals with the application of different electronic media in the collection, storage, and rapid access to information to users. As the present age is the age of technology, whereby technology plays a key role in the education system, there are endless possibilities with the integration of ICT in the education system. ICT helps tremendously developing in quality education and personality of students. So, there can be a strong move towards ICT by motivating all individuals connected with education. Once the teacher uses innovative ways to arouse interest and enthusiasm in the class, then it helps the slow learners to optimize their abilities, to meet the highest realistic expectation with the help of ICT. Our College has also installed 8 smart board which are also used by our faculties to make students learn in a practical manner.

ICT helps - flexible education, learner autonomy, access and success to all. It makes the learning process more practical and easy. It reduces the problems of the student indiscipline and unrest. It is a more planned and organized system of education. ICT can enhance the quality of education in several ways: by increasing learner motivation and engagement, by facilitating the acquisition of basic skills like –

Audio tools — like WhatsApp, Google Meet, Teachmint, etc are used by faculties of this institution. The tools depend mainly upon the students' access to different network availability.

Video tools— like WhatsApp, Teachmint, Google Meet etc are used for the purpose.
